

TCS BIOSCIENCES LTD, CHANGE NOTICE: CCI 120

To: Customers purchasing Selectrol

It is our intention to change the source strain of the product listed below. The details of the change and the reason for it are given below.

Please acknowledge receipt of this notification and confirm your acceptance of the change by completing the section below and emailing a copy of the form to qc@tcsgroup.co.uk. Acceptance of the change is assumed if a response is not received within two weeks of issue of this notification.

If you have any difficulties or concerns accepting the change, please contact us immediately.

Product: Selectrol strain MM53 *Candida krusei*

Proposed Change Date: 06.11.2023

Change Details:

We will no longer be able to offer for sale MM53 *Candida krusei* NCPF 3953. Instead customers will be able to purchase MM03 *Candida krusei* NCPF 3100

Reason for Change:

Vials of NCPF 3953 source strain (generation 0) used for manufacture of MM53 are no longer available in the National Collection of Pathogenic Fungi (NCPF) collection supplied by UKHSA.

An alternative source strain of NCPF 3100 has been purchased and will be available as MM03 *Candida krusei* in the TCS Biosciences catalogue.

Considerations:

MM03 is an alternative to MM53 and can be used as a replacement for this product.

I understand and accept the changes proposed to the product given above.
